

## **BookMyRoom**

**ABC private limited** is a global technology company specialized in internet-related services and products in the hospitality field.

They are looking for a partner who can help them to build best in-class application called “**BookMyRoom**” to facilitate their Indian customers to book hotels through internet.

The application must aim users who frequently travel, help them to book suitable hotels/rooms based on their preferences.

The application must simplify tasks to users to identify and book room that meets their requirements. It must create a personalized experience for each user, through recommendations, referral discounts on referring friends and social media feeds.

ABC private limited is also planning to onboard technical team who can play role of admin to onboard new hotels that would like to use this new platform and alter the existing hotels, room and partner details as per availability.

The application should be safe, secure to use, and should be accessible anywhere and anytime.
